

7th Annual Haifa Verification Conference
December 6 – 8, 2011
Haifa, Israel

HVC'11

The annual HVC 2011 international conference is dedicated to advancing the verification and testing of both hardware and software. HVC is the only conference that brings together researchers from all verification fields, thereby encouraging the migration of methods and ideas between domains. We encourage submission of works that exemplify the successful integration of ideas from different domains of expertise.
